DETAILED ACTION

Allowable Subject Matter

1. Claims 1-24 are allowed.
2. The following is an examiner's statement of reasons for allowance: with respect to claims 1 and 16, in addition to other limitations in the claims the prior art of record fails to teach or disclose the applicant's invention as claimed, particularly the feature describing a first electrode ground vertically space by a certain distance from a first conductor pattern and a second electrode ground vertically space by a certain distance from a second conductor pattern.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Matsumura et al (6,414,567) discloses a duplexer having two matching inductors for matching circuit and four ground electrodes are at the sides which are not vertically space from a first and second conductor patterns.

Horii et al (5,525,942) discloses a duplexer having receiving filter, transmitter filter, and matching circuit, but no pattern of the matching circuit or ground electrode vertical space from the matching circuit.
